Purpose of the establishment of private security companies; companies, sites, factories, etc. holdings are set up to serve safer places. In order to provide a quality service private security officers are required to carry a set of criteria. We as a family Altay Security careful while choosing private security and we have received some major issues are. When selecting staff; agreement that we're looking at a suitable staff to the project staff; Have specific security identity? How diction? How conversational style and tone? Does the right to express himself? Does EMBA exchange rates? be tolerated and without prejudice to behave Does anyone know? Does verbally attention to the person opposite? passing of the criteria you have selected, etc. The staff we're doing interviews before starting the project by training we provide more positive and knowledgeable work. In addition to private security guards after the start of the project in safety, first aid, communication to the project through training often provide better data to work with. Altay Security makes it different from other companies is a matter thereof.
